

What Is Project Raven?

Project Raven is a pilot project between Allevio and Allevio affiliated clinics in Florida that aims to support Canadian pain patients while they are abroad.

The program connects you with trusted clinics across Florida, books appointments, collaborates on care, ensures that the correct procedure is being done, ensures applicable, non-controlled prescription medications can be shipped to avoid US drug premiums, and finally allows our patients to save up to 50% off cash rates for trusted care that their Allevio physician approves.

How The Program Works

- 1) Register with the program (the pilot project fee is discounted from the usual fee) and ensure Allevio has your medical records if you are not a patient.
- 2) When and if you need a treatment in Florida, call us at (305) 894-0620 and ask us to book a procedure for you. We will contact you with a date, time and fee (if any) as well as advise where the closest affiliate clinic is.

Attend the consultation with your Florida physician. Following, the Florida physician will confer with Allevio in Toronto about your records and the course of action. Allevio approves all charges incurred on your behalf to ensure you are not over-charged.

You pay Allevio, in Canadian dollars and in Canada, for your procedure, saving you currency exchange and taking advantage of Allevio rates with foreign providers.

Allevio Pain Management

Outstanding Medical Care, Priced For Canadians

Allevio Pain Management believes there is a better way to help patients while spending time in Florida.

Our services are backed by a reputation of clinical experience in a very challenging area of medicine, which are designed to be trustworthy and easy to work with. Allevio is one of Canada's largest and most respected pain management clinics, and now offers that same level of passion and commitment to patients wary of foreign pain management services, who want to save money on their US pain care, and who want their physicians to collaborate on both sides of the border.
